

1. KLOVE serves me by providing a source of positive, encouraging, family friendly programming. I cannot find that anywhere else in my community. I also travel across the country on business and I search out the local KLOVE stations in order to continue to get the same level of service I receive when I am home.

2. The community will lose a source of family friendly, encouraging, and positive programming. This broadcast service is important to have for our children and young adults as well as for our elderly population. They do not need or want to be bombarded with the broadcast services currently available and they turn to KLOVE for the positive influences rather than the main stream commercial broadcast services.

3. KLOVE broadcast services are in the interest of the public as it is unique and cannot be found anywhere else. It provides a service to the public that mainstream commercial FM does not have. KLOVE should not be taken off the air just so there can be more LPFM stations. We need to have the local services provided by KLOVE.
